Technical notes and soundtrack

Even though the piece can be played fully acoustically there is an option to include an electronic soundtrack to it. The soundtrack is especially recommended if the piece is played outdoor.

The soundtrack consists of only 1 file (versions for stereo and multispeaker setup included). The soundtrack is gently faded in while the audience is arriving or right after the end of any previous piece. The soundtrack is then gently faded out around G. See the score for more detail.

If the soundtrack is included in the performance it is recommended that the ensemble is fully, or partly amplified to obtain the correct balance, color and audible placement of the sound of the overall piece.

The soundtrack is meant to submerge the audience in sound and the recommended setup is quadrophonic setup for the soundtrack. See also fig. 1.

Alternatively, the piece including the soundtrack can also be played on any standard stereo PA

Performing the soundtrack

All necessary sound files as well as more specific guidelines for the use and performance of the soundtrack can be found at: reginpetersen.dk/herfra/herfra.html

Measure 425 shows the woodwinds and strings entering with their respective patterns. Measure 426 continues these patterns, with the woodwinds playing a more complex, syncopated rhythm. Measure 427 features a change in dynamics for the woodwinds, with the Flute and Oboe playing *f* and the Clarinet and Bassoon playing *p*. Measure 428 concludes the section with a final sustained note in the woodwinds and a change in the string pattern.
